

Are you tired of bearing the full financial burden that comes from running your own business? How about the big financial step backwards when one of your customers files bankruptcy or just goes out of business and sticks you with a bunch of unpaid bills? Have you ever made an error on a job and had to 'eat' the cost?

If your answer to any of these questions is yes, American's Business Protection Program (BPP) was designed for you. American is the only company in the industry to offer this unique, one-of-a-kind program to our best customers, our sales associates. This past year, the Business Protection Plan has provided significant benefits to many of our associates across the country. Based on feedback from the field, we have been able to continually expand and enhance this program every year since its inception in 2004.

The Business Protection Program was implemented to help our sales associates protect their income and avoid losses from situations that are out of their control. Even if the loss is the result of an error made by the sales associate, the plan covers the cost and the sales rep stays whole.

The coverage includes but is not limited to:

- Protection from losses resulting from vendors or customers that file bankruptcy.
- Protection against preference claims resulting from a bankruptcy.
- Losses resulting from customers that discontinue business operation but do not file bankruptcy.
- Unrecoverable losses resulting in credit card fraud.
- Financial protection from sales errors.
- Protection from errors made by the home office staff.
